I, as the owner, owner’s agent of this property, or contractor, request to start construction work in which a building permit has not been completely secured. I have submitted a building permit application, plans for the project, and all necessary documentation and that permit application package is currently in the review process with the City of Manteca. The request of this courtesy inspection is solely limited to an Underbuilding Plumbing Inspection at the address listed above and noted on this application for courtesy inspection. I fully understand and agree that I will be responsible for any additional work that may be necessitated as part of the courtesy inspection or corrections or modifications necessary due to the incomplete state of the building permit. I fully understand and agree that all work will comply with the approved set of plans and all state and local rules and regulations and will hold the City of Manteca harmless for any work necessary or any claims arising from this courtesy inspection or future inspections on the project.
